anunta®

A GARTNER® MAGIC QUADRANT™ FOR DAAS COMPANY, FOUR YEARS RUNNING

MANAGED DESKTOP AS A SERVICE

PACKAGED DAAS

Fully managed end-to-end support for virtual desktops.

With Packaged DaaS your organization gets a single point of accountability instead of a stack of vendors to manage. With this fully managed solution you get high-performance digital workspaces, easy auditability, machines tuned to specific workloads so users get what they need, the ability to quickly scale use cases and user volume as well as manage BYOD or in-house fleets, and the ability to extend the life of existing hardware.

Anunta's award-winning support, running on platforms of your choice.

Your Identity, Security, & MFA tools
